

HTX S – HTX S HD – HTX M – HTX M HD

Integrated Heat Exchanger

The new HTX heat exchanger product line has been designed with the focus on easy integration in recreational, special vehicles and marine. Considering various customer requirements, the HTX series offers versatile installation capabilities, such as in the dashboard or under the ceiling.

With four heating performance classes, starting from 3.3 kW and up to 6.6 kW, it is guaranteed that every customer will find the best suited solution for their individual vehicle project.

Durable, highly efficient fans and blowers deliver powerful and constant airflow and thus provide optimal distribution of air within the vehicle. High quality, automotive-grade components have been selected to guarantee reliability and long service life.

Additionally, versatility of HTX series is underlined by the variety of available accessories and installation kits, including control units, air vents and ducts.

Key benefits at a glance:

- Heating solutions deliver high performance heating from 3.3 kW to 6.6 kW
- Versatile installation options under dash or roof allow for optimum integration in diverse vehicle designs
- Durable, highest quality components from proven series production
- No maintenance needed
- Versatility through optimal combination of power and noise
