

Recommendations

1. The personnel transferring the T series must be trained and accredited by BlazeCut.
2. The T series must be within a 3 years installed life (a copy of the original documents required before the transfer can be completed)
3. Photos and full details need to be taken of the old vehicle and the tube on the old vehicle before removing.
4. Photos and full details need to be taken of the new vehicle and the tube on the new vehicle once installed.
5. The tube cannot be bent in opposite directions to its original installed shape. It can only be compressed or expanded slightly.

Do Not

Bend the tube in opposite directions.

You Can

Compress, Expand, Flip, Flip and expand, Flip and compress the tube.

VEHICLE TRANSFER PROCEDURE

Photos need to be taken of both vehicles and attached.

- 1) Photo the front of each vehicle with the hood open clearly showing the vehicle number plate and the installed T series in its fitted state before removal and after installation.
- 2) A photo of the T series attached to the bonnet, in its entirety, before and after the transfer.
