FennoSteel - Top quality since 1985

FennoSteel Oy is a leading Scandinavian manufacturer of exhaust systems for automotive, agriculture and equipment applications. Our customers include both large European aftermarket distributors and original equipment manufacturers. FennoSteel's roots date back to 1985 when the first production site was established in Parkano in South-Western Finland. The Parkano site consists of 12000 m² production area and additional 9000 pallet logistics centre. Approximately half a million parts are stocked and ready to be shipped within 24-hour notice to customers.

Heavy commercial vehicles

In recent years FennoSteel has gradually grown into work equipment and heavy commercial vehicle categories. To offer a comprehensive product coverage, Fenno collaborates with other exhaust manufacturers to complete own production.

You are viewing our aftermarket catalog for heavy commercial vehicle exhausts. It is specifically selected for Euro 4/5 Mercedes, Scania and Volvo parts, due to their dominance on Scandinavian roads. New products are being added constantly, so the best place to find the right part is our online catalog at www.fennoheavyduty.com.

Please contact your nearest service provider for reliable Fenno parts.
