REMOTE KEYS

AKONEN is a B CAR Auto Parts Group international brand **specialized in Remote Keys for Passenger Cars and Light Commercial Vehicles**, located in Barcelona, Spain.

Remote keys are unknown and specialized product in the Independent Aftermarket. When customers lose their key car, damage it or simply need an extra one, they usually get a new Key at the Official Dealers, who are, until then, the almost unique offer in the market.

AKONEN detected this opportunity and has developed a **wide range of high-quality Remote Keys**, giving to its clients a strong tool to contend with their competitors.

From mere buttons, to more complete key shells, including transponder, key blade, open/close buttons, boot buttons and other functionalities, **AKONEN offers more than 1.935 references for 43 brands, guaranteeing quality and compatibility with your customer vehicle.**

Thanks to the quality of our products and service, AKONEN is now present in most of Europe, Middle East, Africa and America and is constantly growing worldwide every day. For more information you are welcome to visit our webpage on www.bcarparts.com
