

PN 880066

- **Tin-plated copper busses and fuse clips provide 30 Ampere rating per circuit**
- **Stainless steel hardware** provides superior corrosion resistance
- **Accepts ATO®/ATC® fast acting blade fuses***
- **Accepts ring or spade type terminals**
- **#8-32 terminal screws** with captive lock washers
- **Positive distribution bus with #10-32 stud**
- **Negative common bus** with #10-32 stud
- **Clear insulating cover** that provides storage for two spare fuses and incorporates an easy to open, push button latch

* Fuses sold separately

Specifications	
Compatible Fuse Values	1-40 Amp ATO®/ATC® Fuses
Maximum Continuous Amperage per Circuit	30 Amps
Maximum Total Continuous Amperage per Block	100 Amps
Maximum Operating Voltage	32 Volts DC
Terminal Screws	#8-32 with Captive Lock Washers
Mounting Holes	Accept #8 or M4 Screws
Cover Material	Clear Polycarbonate
Base Material	Glass Reinforced Polycarbonate
