Picture:

“One Lock fits all”, 3 different mounting options with the same lock !

- Surface mounted installation: for sliding door, cabin doors or double rear doors of a Van.

- Wall mounted installation: for Motorhome or Caravan entrance door, garage door or hatches.

- Door frame mounted installation: for Motorhome or Caravan entrance door, garage door or hatches.

Available in White

and available in Black

Description:

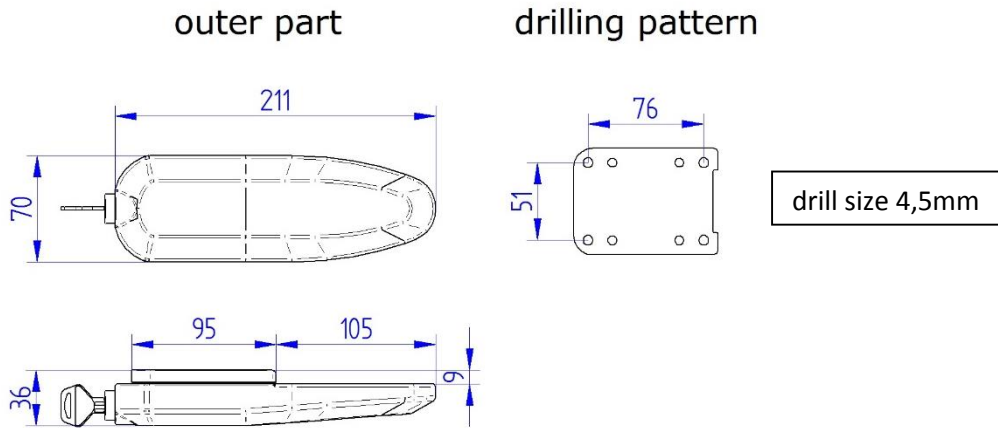

- High security lock for Motorhome, Caravan and Vans.
 - Large overlap with the door for high security.
 - Strong rotating lock system with a sturdy 8mm axle
 - Integrated anti rattling system
 - 3 different mounting options with the same lock:
- 1) Surface mounted installation:
 - for sliding door, cabin doors or double rear doors of a VAN.
 - Installed with 4 screws in the bodywork of the vehicle.
 - For sliding doors a 38mm clearance is required to fit the lock. As an alternative a door stopper can be mounted in the rail or the lock can be mounted in a higher position.
 - 2) Wall mounted installation:
 - for Motorhome or Caravan entrance door, garage door or hatches.
 - Installation through the wall with 4 bolts, mounting plate and cover.
 - Fits left or right opening doors.
 - 3) Door frame mounted installation:
 - for Motorhome or Caravan entrance door, garage door or hatches.
 - When space inside the vehicle is too limited to fit the mounting plate.
 - Installed with 2 screws in the door frame.
 - The door frame bracket only requires a 3mm gap between door and frame.
 - Fits left or right opening doors.
