

SUPER PLUS SV1

Alcaline Auto Shampoo.

A liquid, alkaline, foaming cleaning agent for removing stubborn deposits of dirt etc. from autos, lorries, buses, trains and other alkali-resistant surfaces.

Effective against: Grease ; Oil ; "Road Film" ; Dirt on vehicles

Field of use:

- **Vehicle cleaning:** Specially formulated for stubborn or heavy soiling on cars, lorries, construction equipment, buses, and trains.
- **Industrial applications:** where it is highly effective in removing grease or oil from machinery or work pieces.

Product benefits:

- Economical to use, because it is highly effective in small concentrations.
- Reduced equipment maintenance costs because of corrosion-blockers in the formula.
- Produces excellent results in a short time because it is powerful, yet gentle to painted surfaces.
- Friendly to the users and the environment because of a high degree of biodegradability.
- Automotive paint compatibility tested by Institute for Paint Testing (Giesen, Germany)

Application:

- **High Pressure Washers:** Dilute SuperPlus 1:10 (10%) in the detergent tank of the machine, and set the detergent injector for between 1 and 5%, depending upon the degree of soiling.
- **Self-Service Car Wash:** Use as above, or set the car wash equipment to result in a concentration of between 0,1 and 0,5% in the cleaning detergent spray mode.
- **Always rinse thoroughly, when finished cleaning.**
- **Do not apply to hot painted surfaces. Do not allow the solution to dry on the surface being cleaned.**

pH value: 11,0 in 1% solution
