

WALK THE DOG

Elwis Focus H140 or "WALK THE DOG", is an excellent value for money headlamp for the active user.

The WALK THE DOG is created to provide the user with an extra dimension, no matter what part of the outdoor universe one appreciates.

The model can deliver an output of 140 lumens, and it is able to illuminate a field 30 meters forward. In addition, it has a battery life that lasts for as long as 4 hours.

WALK THE DOG is powered by 2xAAA batteries, that can be easily replaced when needed. In our range of Focus products, this is one of the absolute heavyweights - within our lightweight range.

The sturdiness of the model is emphasized by its solid IPX3 rating. Moreover, the model works flawlessly, even under severe temperature conditions from down to -10° C and up to + 50° C.
